**Subject:** RE: Sunoco - notice of Hydrostatic Testing and REQUEST FOR BOTTLED WATER

Ivana: Thank you for the testing notice.

I have a problem with well pollution in one of our Meadow Lane residences.

**I want bottled water delivered starting today TO 1585 Meadow Lane regardless of the results of her well test until further notice.**

This resident is an 86 year old widow who is struggling with handling the pipeline issues and impact. She was in my office today crying and very upset by correspondence she received from Sunoco regarding well testing. She received a letter from Sue Erickson of Sunoco Logistics that although there was evidence of MTBE in her well water. Sunoco indicated it hadn't used this product in over 7 years and was therefore relieving itself from any duty or responsibility to this land owner.

Please have someone immediately put the property at 1585 Meadow Lane on the list for delivery of bottled water and keep it there until we satisfactorily resolve this issue.

This is a matter of safety/health and welfare.

The property owner, Mary Grekowski, indicated she became very ill from drinking the well water that she feels was tainted as a result of or soon after Sunoco remediated the anomalies in its pipelines near her property. When this work was done recently, Sunoco caused a major disturbance in a wide area where there had been an actual oil leak years ago.

I believe this is the least we can do for this resident. Please confirm receipt and acknowledgement of this request.

Thank you.
